Why is important for academicians to be involved in writing and publishing a paper and how imperative it is to plan and execute research with publication in mind. He then went on explaining what should be the structure of a well written research article and what should be the language and the style of writing. Session concluded with the resource person taking up certain questions. The FDP was well received by the participants who reflected on the feedback form collected by them. FDP was coordinated by Ms. Geetika Jha.

Prelude to Writing

Check the originality of the idea at the very beginning of your writing

- Have you REALLY done something new and interesting?
- Is there anything challenging in your work?
- Is the work directly related to a current hot topic?
- Have you provided solutions to any difficult problems?

If all answers are "yes", then start preparing your manuscript
